

# SUPERLIGHT PANEL

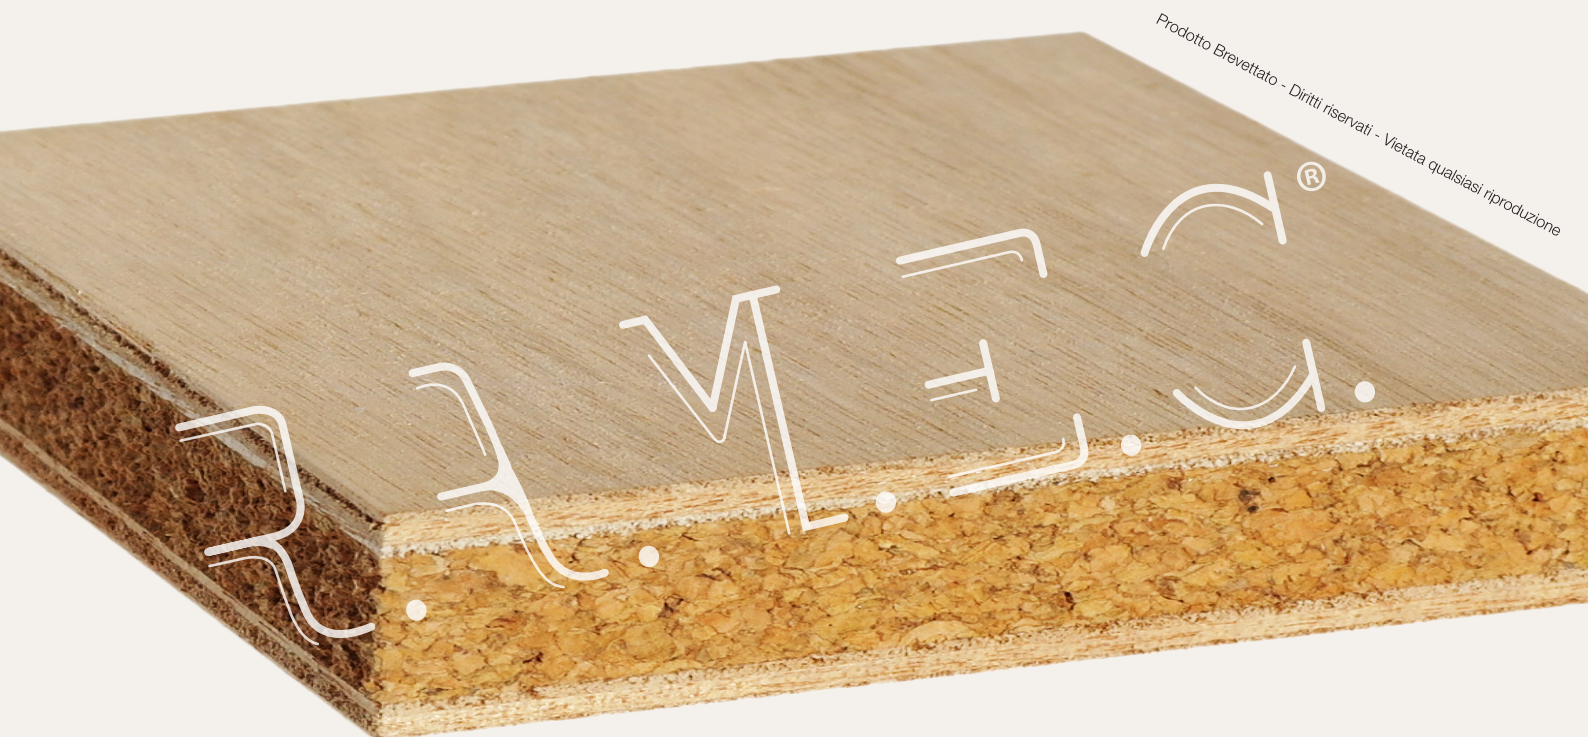

Superlight panel is a sandwich lightweight panel, composed of faces in multilayer Okoumè and a high-density cork core.

Thanks to the technical characteristics of the materials of which it is composed, this panel provides a good acoustic and heat insulation and a high weights reduction. It is

therefore ideal for the realization of open spaces, marine bulkheads, parts of furniture, partition walls in general.

The glue used in the assembly process of the materials is of our own invention, certified, solvent-free, with no VOC emissions and with technology that follows the nautical regulations.
